

Dear Sir/Madame

I'm writing to you about the opinion of people of raising up the minimal wages payment, everything go drastically up, maybe reducing the costs of PRSI and USC might help and rising a minimal payment per hour up to 11.50e. A lot of people have a difficulties of paying the rents to a private landlords because all rent are so high and many people struggle because of that. The major problem now in Ireland is paying a rent, even in shops everything did go up.
