

hi. how are You ?

I'm resident of Ireland from 3 years. Me and my husband we have wish to have family and live just together. but with cost of rent in Tallaght 1600e + bills two bedroom apartment it's not possible normal life. we are very upset and still we have to share our apartment. we can't save enough money to get mortgage because prices of apartment or houses are horrible expensive in Dublin. and we don't want to move out because we work here. of course will be better if min rate will be 11.e or more. but rent every year growing. should be change renting law.

thanx

regards
